

Safwen Belknani

Full-Stack Software Developer | AI Integration (LLM, RAG, NLP)

safwenbelknani@gmail.com | +216 23 269 161 | Sousse, Tunisia | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Software Developer with 1+ year of experience designing and building intelligent web applications, interactive dashboards, and automated workflows. Full-stack development lifecycle experience combined with AI integration (NLP, LLMs, RAG) to ship reliable, high-quality applications.

PROFESSIONAL EXPERIENCE

Software Developer – Full Time, [Griffin](#)

05/2026 – Present
Sousse, Tunisia

- Developed and maintained web applications using modern full-stack technologies.
- Integrated AI-powered chatbots and intelligent features into production applications.
- Performed functional testing, bug identification, and validation to ensure release quality.
- Collaborated with cross-functional team members to improve application quality and performance.

Full-Stack Developer – Internship, [Rosenberger](#)

02/2026 – 05/2026
Sousse, Tunisia

- Developed an AI-based support assistant that automated responses to common employee requests, reducing first-level support workload.
- Maintained and updated the knowledge base powering the support platform to ensure accurate, up-to-date information.
- Integrated support tools and internal services using REST APIs to streamline user assistance workflows.
- Improved system performance and reliability, contributing to faster issue resolution and a better end-user support experience.

Software Developer – Part-time, [Abajim](#)

09/2025 – 01/2026
Sousse, Tunisia

- Developed and maintained interactive React interfaces for end users.
- Designed and integrated secure Node.js APIs with MySQL.
- Built filtering, sorting, and dashboard modules that improved user workflow.
- Optimized performance, debugged issues, and contributed to testing and code quality.

Full-Stack Developer – Internship, [Vision Age VFX](#)

06/2025 – 08/2025
Sousse, Tunisia

- Built scalable React applications with dynamic filtering and data management.
- Created RESTful APIs with NestJS, PostgreSQL, and Prisma ORM.
- Designed responsive interfaces with Tailwind CSS for interactive workflows.
- Implemented intelligent logic modules that improved data processing and platform automation.

SKILLS

Frontend: React, Next.js, Tailwind CSS

Backend: Node.js, Express, NestJS, Python, FastAPI, .NET

Database: PostgreSQL, MySQL, Prisma ORM

AI & Solutions: LLM, RAG, NLP, LangChain, LangGraph

QA & Testing: Functional Testing, Test Case Design, Bug Tracking, Regression Testing, Jest

EDUCATION

Bachelor's Degree in Computer Science — 2023 – 2026
ESSTHS – École Supérieure des Sciences et de la Technologie de Hammam Sousse

High School Diploma in Sciences
Lycée Pilote de Sousse

PROJECTS

- Chooser

11/2025 – 12/2025

AI-powered matchmaking chatbot connecting clients with service providers (plumbers, electricians, freelancers) through a conversational interface, using local LLMs, NLP, and orchestration frameworks for context-aware interactions.

Stack: LangChain, LangGraph, LLMs, NLP
- Tenancio

01/2026 – 02/2026

Secure financial management platform for tenants, with data isolation and role-based access control (RBAC).

Stack: Next.js, TypeScript, Tailwind CSS, Supabase, PostgreSQL, Jest
- Ch9awlek

08/2025 – 09/2025

Platform offering data-driven insights on salaries and cost of living, powered by automated analysis.

Stack: React, Express, LLMs
- Eventini

02/2025 – 06/2025

Full-stack event management platform with organizer dashboards, dynamic ticketing, filtering, and workflow automation.

Stack: React, Node.js, MySQL
