PROFESSIONAL SUMMARY

DevOps and Cloud Security graduate with hands-on experience building secure CI/CD pipelines, Kubernetes deployments, and Infrastructure as Code solutions. Azure-focused cloud and DevSecOps projects with foundational AWS knowledge. Developed a DevSecOps Policy-as-Code platform. Passionate about automation, cloud security, and shift-left practices.

EXPERIENCE

End-of-Studies Project (PFE)

DevSecOps Practitioner – Final Year Project

ISITCOM, Hammam Sousse

Feb 2026 – June 2026

- Designed and built a full DevSecOps Policy-as-Code microservice from scratch over 4 months.
- Implemented 103 security rules across Terraform, Docker, Kubernetes, and cloud manifests.
- Achieved a final grade of **18/20** from the defense jury.

TECHNICAL SKILLS

Cloud: Azure (App Service, VMs, Storage, VNet, NSG), AWS (S3, EC2, IAM, RDS, EKS), Terraform.

DevOps: Docker, Kubernetes (K3s), Jenkins, Git, GitHub Actions, Nginx, Docker Compose.

Security: DevSecOps, Policy-as-Code, RBAC, Secret Detection, Wireshark, Nmap.

Code: Python (FastAPI, Flask), Bash, YAML, HCL, HTML/CSS, JavaScript.

Monitoring: Prometheus, Grafana.

PROJECTS

DevSecOps Policy-as-Code Microservice – FastAPI, Docker, Prometheus

2026

- Built a custom Policy-as-Code engine that scans Terraform, Docker, and Kubernetes manifests against 103 security rules with 46ms average scan speed.
- Developed an auto-fix engine that automatically remediates security misconfigurations.
- Implemented 4 RBAC roles to enforce least-privilege access across the platform.
- GitHub: github.com/ridha-gn/devsecops-policy-service | Demo: youtu.be/fwBqOfDcpqw

Azure Storage Security Scanner – Flask, Azure SDK, App Service

2025

- Built a PaaS scanner that audits Azure Storage Accounts for public access misconfigurations with one-click remediation. Follows CIS Benchmarks.
- GitHub: github.com/ridha-gn/azure-storage-security-scanner | Demo: youtu.be/ic6CjzUQe8o

Cloud Secret Detection SaaS – FastAPI, Azure App Service

2025

- Developed a cloud SaaS that detects exposed secrets in code (API keys, passwords, private keys) and highlights high-risk credentials for safe handling.
- Demo: youtu.be/4UJi7nMi3l8

Weather Microservices – Full DevOps Pipeline – FastAPI, Docker, K3s, Jenkins

2025

- Containerized and deployed 3 FastAPI microservices on K3s Kubernetes using Jenkins CI/CD pipelines, enabling automated deployments and service orchestration.
- GitHub: github.com/ridha-gn/weather-microservices-project

Cloud Security Lab – Azure IaaS – Terraform, Azure, Wireshark, Nmap

2025

- Automated Azure VM deployment with Terraform, reducing infrastructure provisioning time by 90%. Real-time attack detection with Wireshark and Nmap.
- GitHub: github.com/ridha-gn/cloud-security-lab | Demo: youtu.be/yø1BtTfkjs

EDUCATION

License in Telecommunications

Hammam Sousse, Tunisia

ISITCOM – Institut Supérieur d'Informatique et des Technologies de Communication

2023 – July 2026

CERTIFICATIONS

AZ-900 Microsoft Azure Fundamentals (2025) • GDG Google Cloud Certification (2025) • Docker for Beginners (KodeKloud, 2025) • Kubernetes for Beginners (KodeKloud, 2025) • Jenkins for Beginners (KodeKloud, 2025) • DevOps Pre-Requisites (KodeKloud, 2025) • Linux Fundamentals (KodeKloud, 2025) • Git & GitHub (KodeKloud, 2025) • Python for Beginners (KodeKloud, 2025)
