HIBA OMRI

FRONT-END DEVELOPER

ABOUT ME

A passionate and motivated developer specializing in Angular development. Always attracted to the world of technology, I chose to use this curiosity to create modern and high-performance web applications.

EXPÉRIENCE PROFESSIONNELLE

Développeuse Front-end

May 2025 – Apr. 2026

Healyn • Remote, Stuttgart, Germany

<https://app.healyn.net>

- Developed a responsive web application using **Angular & Firebase** for the complete management of a medical practice (patients, doctors, recurring appointments, and WhatsApp notifications).
- Implemented intelligent scheduling (considering patient/doctor availability, managing exceptions) with **Firestore integration** for real-time data persistence.
- Enhanced user experience by designing an intuitive interface tailored to healthcare professionals' needs, working in an **Agile framework** with rapid iterations and continuous user feedback.

Développeuse Front-end

Feb. – Jun 2025

Tachkila • Tanitlab, Tunis, Tunisie

- Developed a responsive web application in a team of 6, including team creation, match scheduling, and real-time features using **Angular & Firebase**.
- Optimized user experience and ensured multi-device performance within an **Agile framework** focused on feedback and continuous improvement.

FORMATION

Bachelor's Degree in Applied Computer Science

2022 – 2025

Specializing in Information Systems Development (ISD)
